## Hiking excursion along the Maitland Valley

Do you enjoy going for a hike? Would you like a reason to push your fitness up a level? Want to see some amazing fall scenery along the Maitland Valley?

Here is an exciting early fall challenge on the weekend of Sept. 27 and 28: Walk the Camino of the Winding Maitland River, a two-day hiking event that covers the length of the 49 kilometre Maitland Trail or a shorter challenge if you wish. There will also be some from the trail-running community taking part. They will strive to complete the journey in one day.

Enjoy the camaraderie of other hikers from across the province as you travel to each checkpoint and share the Saturday night harvest dinner.

This exciting fall hike, which is generously sponsored by Libro, is already 50 per cent sold out.

From Aleksandar Radan, a hiker from last year's Camino of the Winding Maitland River: "For those who are unfamiliar with the trail, the opportunity to traverse it in two days is a promise of adventure and memories in grand proportion. The trail is truly a signature of the region's natural beauty, with variations in the sections that span dense and lush mature growth forests, meadows, rolling country side and several opportunities to experience the areas of regeneration following the 2011 F3 tornado before finally arriving at Goderich's main beach. An opportunity to dip your feet into the refreshing waters of the great lake washes away any fatigue and leaves only vivid memories. The cumulative elevation gain and descent engages both your attention and effort affording vistas overlooking the Maitland River that are worthy of a lifetime of adulation. This year's event, with a date in September, will provide the added benefit of cooler temperatures, no bugs and a completely different experience than the journey on last year's Summer Solstice."
